- Other Tools Needed: No

List

Hex key (Allen wrench) × 1

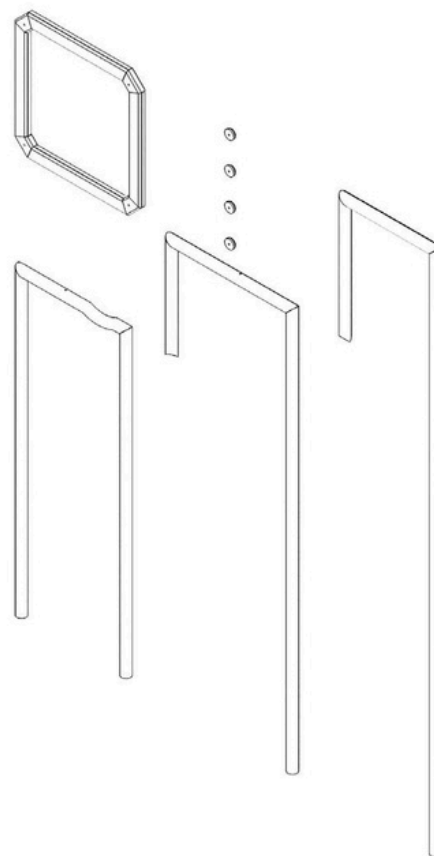

Short hex screws × 2

Long hex screws × 4

Self-adhesive floor pads × 4

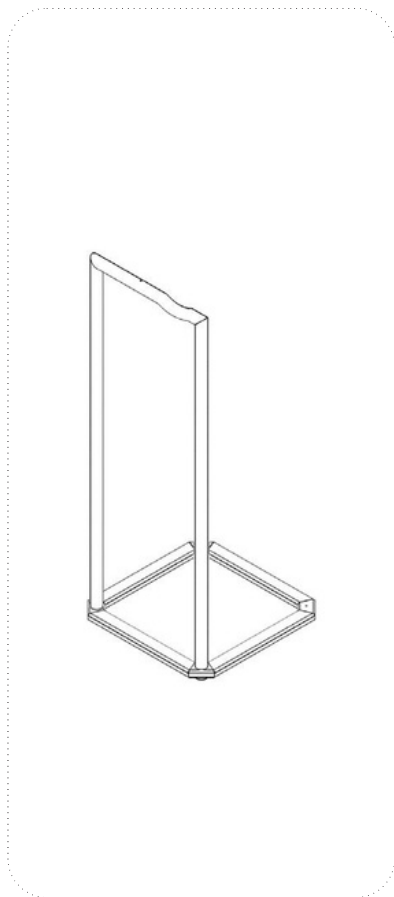

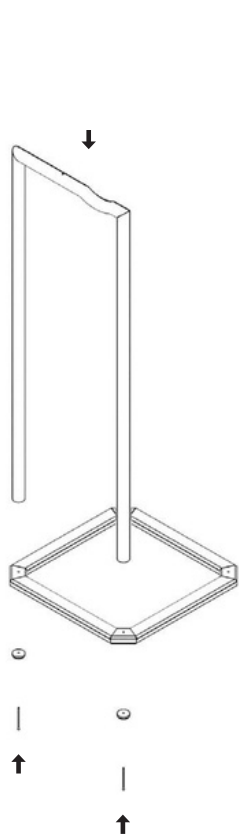

Installation
Steps

Step 1

Use the included Allen wrench to secure the first-tier rack, base, and wooden foot pads together.

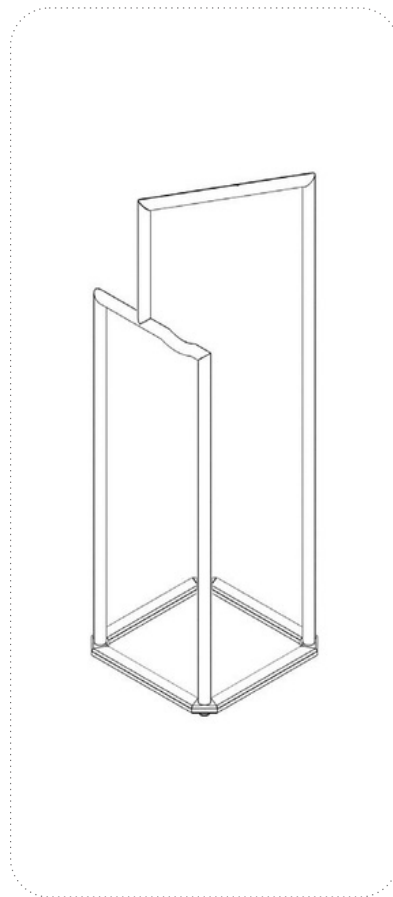

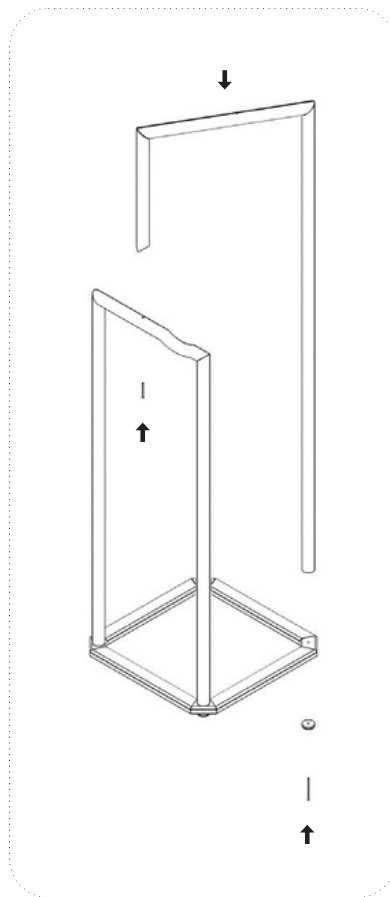

Hardware required: 2 long hex screws.

Step 2

Secure the second-tier rack, base, and wooden foot pads, then tighten the joint between the first-tier and second-tier racks.

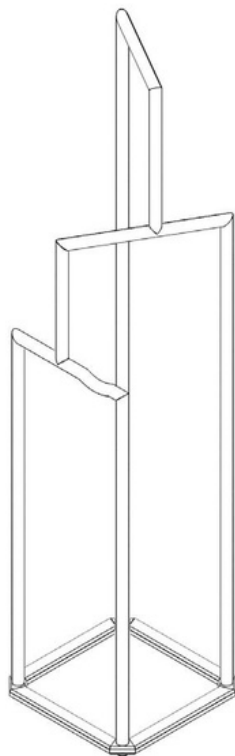

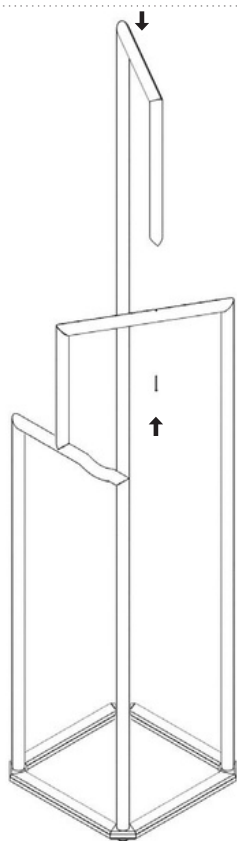

Hardware required: 1 long hex screw + 1 short hex screw.

Step 3

Secure the third-tier rack, base, and wooden foot pads, then tighten the joint between the second-tier and third-tier racks.

Hardware required: 1 long hex screw + 1 short hex screw.

Step 4

Peel and stick the self-adhesive floor pads firmly onto each of the four legs.
