Instruction of Garcia Expanding Paper Seats

The new product is relatively tight, it needs to be fully stretched in place for the first time in case of rebound.

Step 1: stretch to more than 3 meters

Step 2: wait for about 10 seconds

Step 3: repeat step1 and step2 for 2-3 times

Then seat can naturally retract to the length you purchased!

Note:

▲ Be sure to follow the steps

▲ When inspecting and stretching, please operate on a clean and dust-free ground to avoid polluting the bottom of the bench.
